HEAD QUARTER

SEDE CENTRALE

È dal 1955 che Cosma fornisce all'industria dell'arredamento servizi esclusivi e prodotti di qualità.
Una storia di ricerca, creatività ed innovazione, fondata su un rapporto stretto con progettisti e produttori di mobili.
Cosma mette a disposizione una vastissima gamma di prodotti, che riguardano aree di gusto differenti, dal contemporaneo al classico, e un know how tecnologico che consente di sviluppare progetti esclusivi. Maniglie ed accessori realizzati in un'ampia gamma di finiture e materiali sono caratterizzati da elevati standard progettuali e produttivi; ricerca e sviluppo si adeguano alle esigenze di aziende e designer. Una produzione che, nel corso degli anni, si è andata sempre più ampliando e razionalizzando.

Since 1955 Cosma has provided the furniture Industry with exclusive services and high quality products.
A History of research, creativity and innovation based on a closed relationship with designers and manufacturers.
Cosma offers a wide range of products, concerning different tastes, from classic to modern, and a technological know how permitting to develop exclusive projects.
Handles and accessories, produced with a broad range of finishes and materials, are characterized by a high planning and productive standard; research and development are complying with the manufacturers and designers requirements.
A production which has become, over the years, wider and wider.

Cosma UNITÀ PRODUTTIVE

PRODUCTION UNITS

Unità produttiva
Colonnella (TE)
Italy

Nowadays, Cosma can boast cutting edge production plants for creating and finishing its handles and accessories in zinkral, aluminium and stainless steel. For a better organisation the working processes are carried out in 2 production plants: the Head Office of Cassago Brianza (Lecco) where die-casting, production and finishes of Zinkral take place and the other factory of Colonnella (Teramo) where Cosma realizes the stainless steel and aluminium working processes. Cosma, at designers service, at producers service.

Oggi Cosma può vantare impianti produttivi all'avanguardia per la produzione e finitura di maniglie ed accessori in zama, alluminio ed acciaio inox. Per una migliore organizzazione i cicli produttivi si svolgono in fabbriche separate: nella sede centrale di Cassago Brianza (Lecco) si realizza il ciclo della pressofusione e della finitura della zama, mentre nella sede di Colonnella (Teramo) si effettuano le lavorazioni dell'acciaio e dell'alluminio garantendo così la più ampia gamma di servizi e prodotti offerti. Cosma, al servizio di chi progetta, al servizio di chi produce.

Cosma SHOWROOM

Nel corso degli anni l'esigenza di creare punti di incontro con produttori e progettisti ha spinto l'azienda a creare show room permanenti nel cuore di tre tra i più importanti distretti del mobile in Europa: in Brianza presso la sede centrale di Cassago; nel Triveneto con lo show room di Oderzo (Tv) ed in Germania, con uno spazio allestito nella città di Buende, in Ostwestfalen. Punti di incontro e laboratori di idee, in cui vedere i prodotti a catalogo e confrontarsi con l'azienda sulle ultime finiture e tecnologie disponibili con cui sviluppare progetti personalizzati.

Showroom Sede Centrale
Cassago Brianza (LC)
Italy

During the years, the need to create meeting points between producers and designers prompted the company to set up permanent showrooms in the heart of three of Europe's most important furniture districts: in Brianza at the headquarter of Cassago; in Triveneto, at the Oderzo showroom (Treviso), and in Germany, with its premises in the town of Bünde, in Ostwestfalen. It provides meeting points and brainstorming workshops for viewing the catalogue products and facing the company about the latest finishes and technologies available for developing customized designs.

Cosma mette a disposizione alta specializzazione e profonda conoscenza del settore dell'arredamento per dare vita a progetti su misura. Diviene così laboratorio di idee per prodotti esclusivi con qualità inimitabili, un servizio confidenziale per clienti in tutto il mondo che desiderano distinguersi scegliendo il partner ideale in linea con i propri progetti.

The high specialization and the deep knowledge of the furniture industry that Cosma has, are assets shared with customers to create custom projects. Cosma becomes a creation lab for exclusive products with incomparable qualities, a confidential service for clients in the world that choose to be distinguished by a cooperation with the ideal partner for their projects.

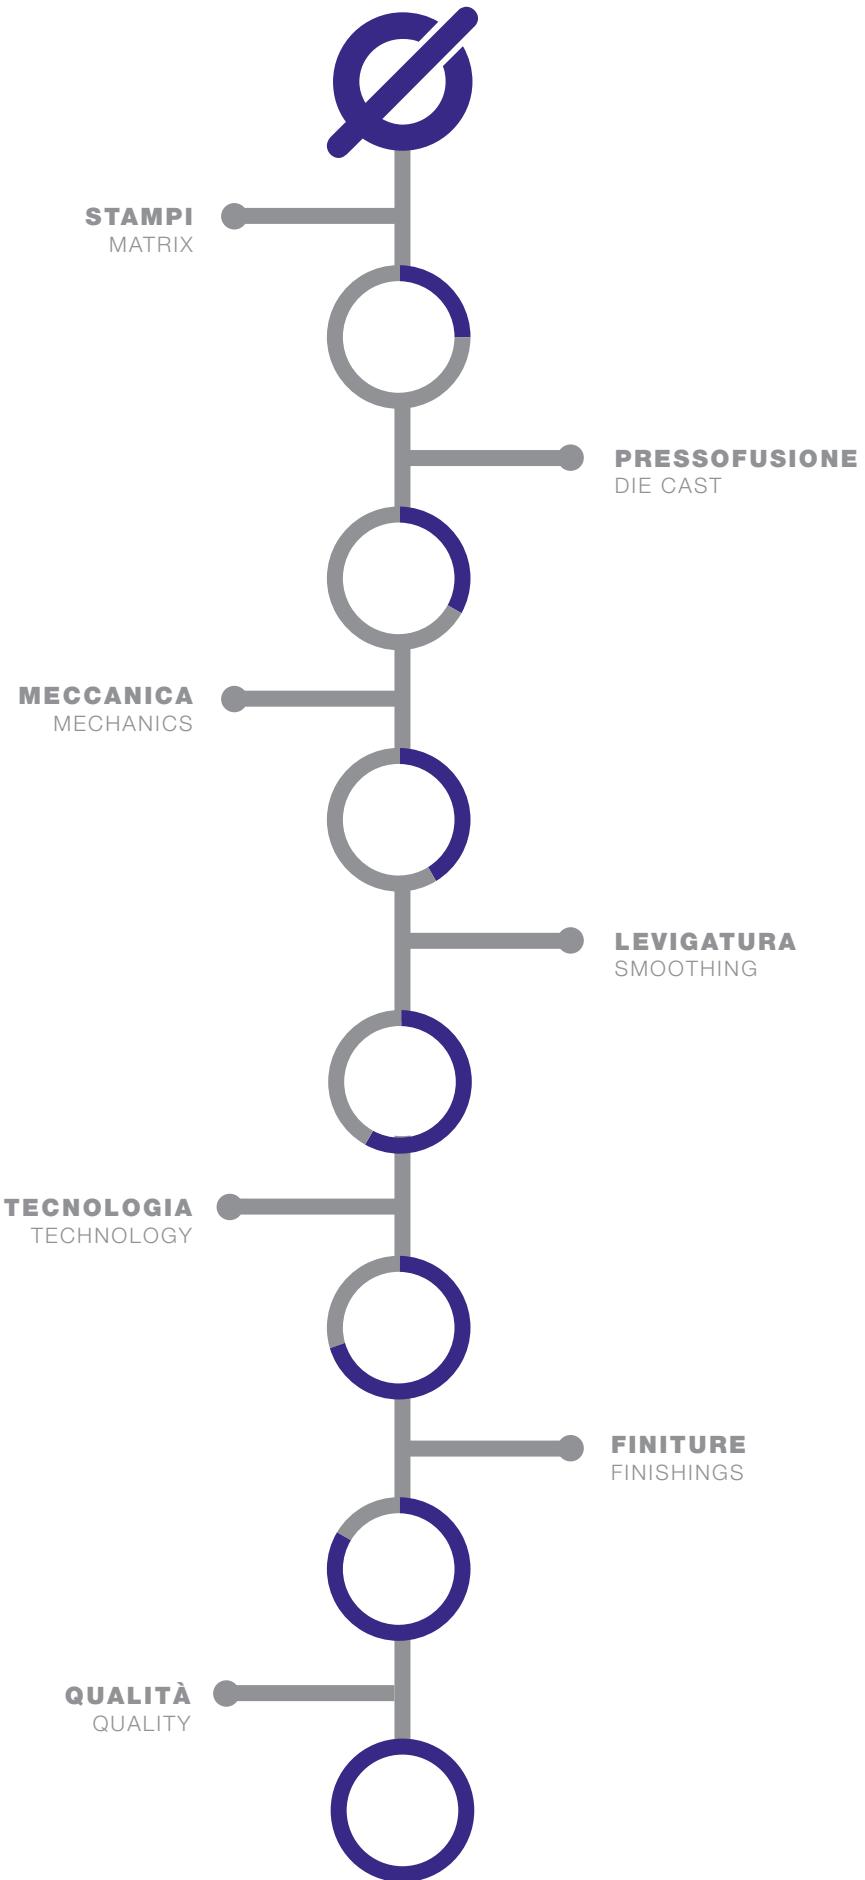

We support and work alongside architects and designers for developing their own designs. The research and development department plays a key role for Cosma, which invests a great deal of resources in this field. Our technical department supervises the design from the initial concept right up to the prototyping, industrialization and mass production. The company avails of cutting-edge technologies for 3D design, rapid prototyping and technical product's analysis.

Cosma PROGETTO DESIGN

Supportiamo e affianchiamo architetti e designer nello sviluppo dei propri progetti. Il reparto ricerca e sviluppo riveste un ruolo fondamentale per Cosma, che investe molte risorse proprio in quest'ambito. Il nostro ufficio tecnico segue il progetto dall'idea iniziale, alla prototipazione fino all'industrializzazione e produzione di serie. L'azienda si avvale delle più moderne tecnologie in ambito di progettazione 3D, prototipazione rapida e studio tecnico del prodotto.

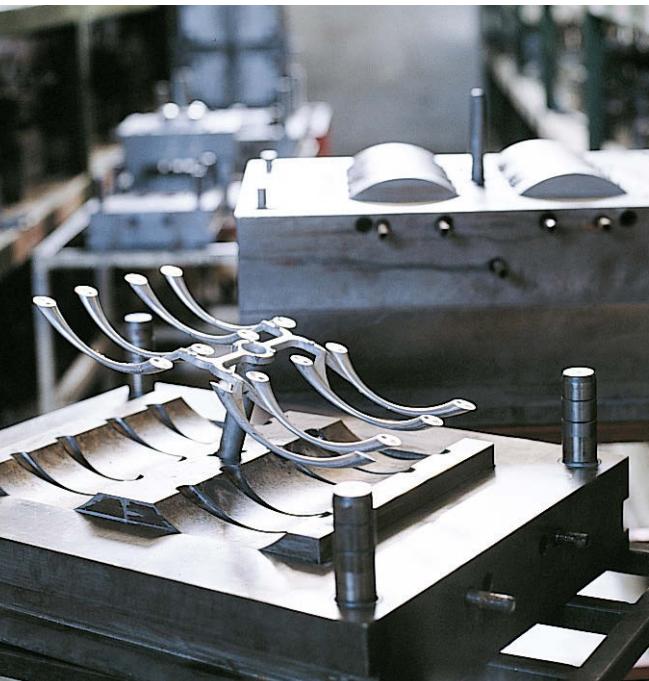

Cosma
LAVORAZIONI
PRODUCTION PROCESSES

Cosma STAMPI

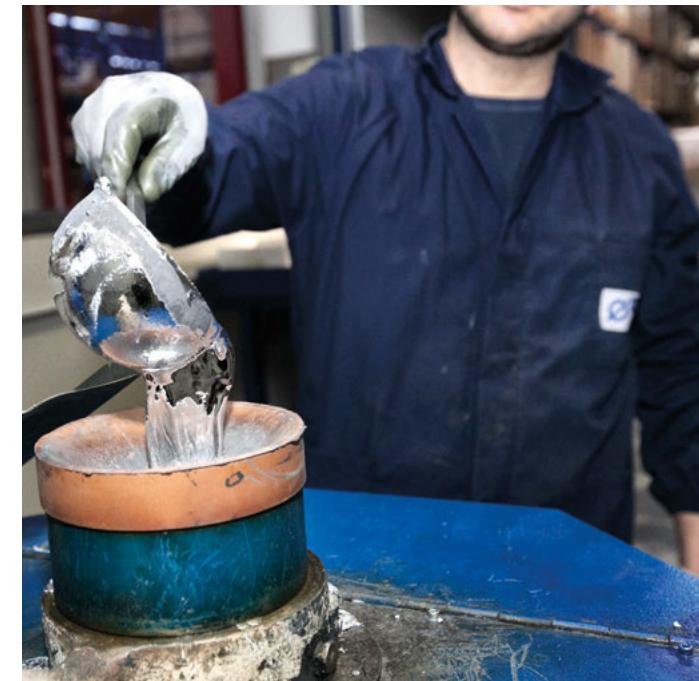

MATRIX

Fonte da cui l'oggetto trae la propria origine, la propria forma e le proprie caratteristiche. Primo fondamentale passaggio delle lavorazioni al quale Cosma affida la trasformazione di idee e design in prodotti industrializzabili. Come la terra dà le forme e i limiti a ciò che ci circonda, così le matrici regolano le dimensioni e le forme di ciò che Cosma produce.

The source from which the object arises with its shape and its characteristics.

First and fundamental working process, used by Cosma to transform ideas and design into a manufacturable product. As the Earth shapes and limits all of our surroundings, the matrixes regulate dimensions and shapes of all Cosma products.

Cosma

PRESSOFUSIONE

DIE CAST

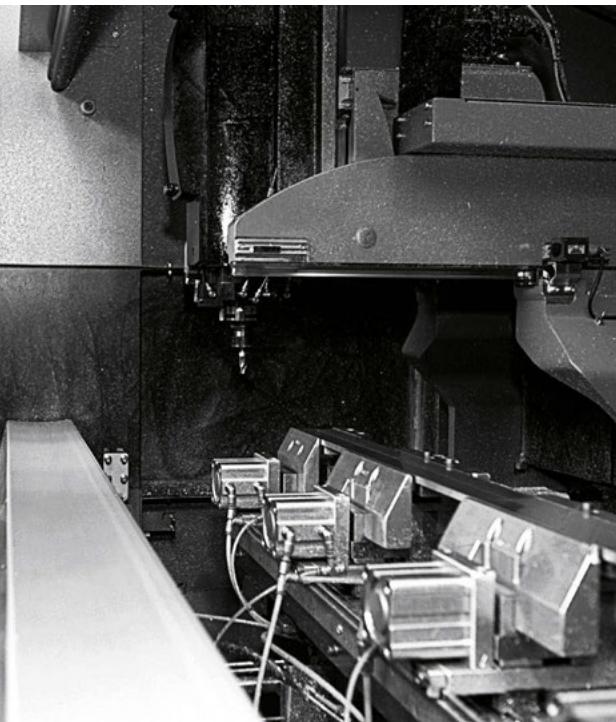

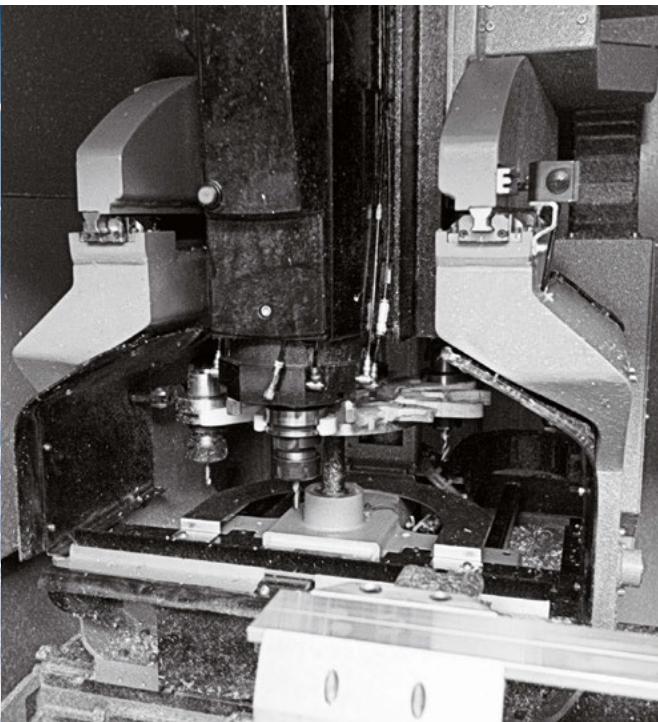

Operazione che consiste nell'iniettare sotto pressione il metallo fuso nella matrice attraverso alte temperature, per dare origine alla forma grezza da modellare con l'utilizzo di tecnologie o lavorazioni manuali
Il fuoco che trasforma e cambia gli elementi che incontra.

Process of high pressure injection
of fuse metal into the die,
made to create raw forms
to be shaped through the use of
technology or handcrafted process.
Fire that transforms and changes
the elements that are encountered.

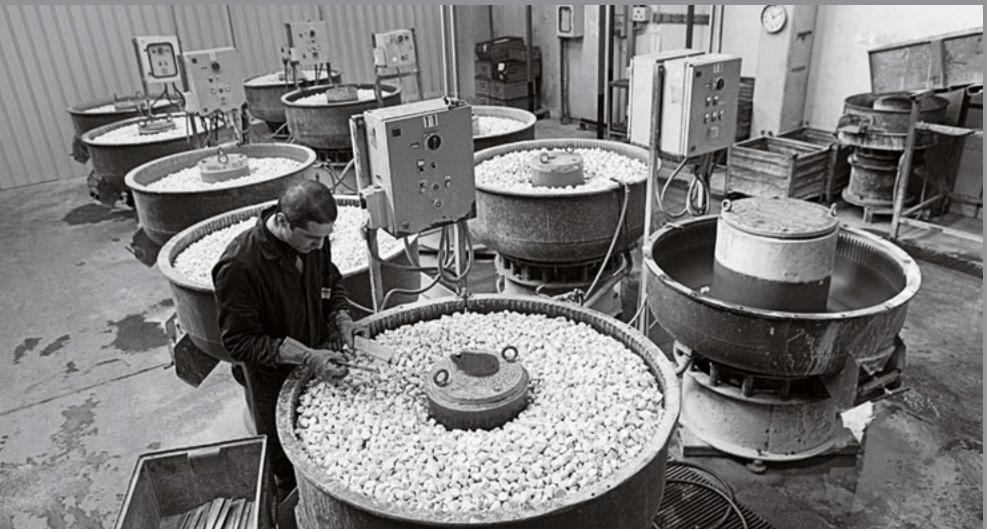

Cosma
MECCANICA
MECHANICS

Lavorazione di oggetti metallici mediante l'uso di utensili e fresa, per dare al prodotto finito la forma e l'aspetto desiderati. Le officine Cosma combinano i processi di fresatura CNC, tracciatura e taglio per creare prodotti personalizzati su misura.

Production of metal objects using tools and cutters to give to the finished product the desired appearance and shape. Cosma's workshops combine CNC milling, shearing and cutting processes to create customized products.

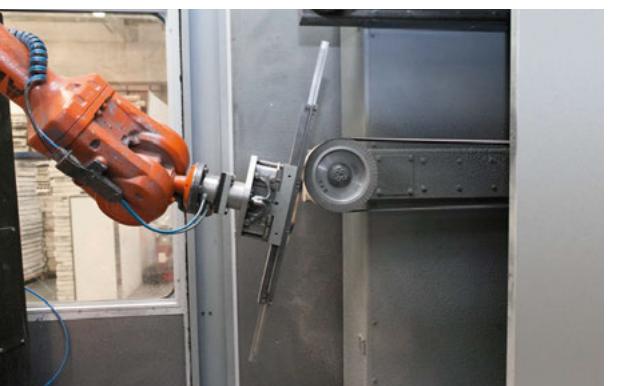

Roughness elimination from an object, as water, rain and wind erode and round all the materials encountered. The smoothing process that Cosma carries out eliminates the useless material surplus of the surfaces, enhancing products' shapes and design.

Privare di ruvidezza ed asperità un oggetto, così come l'acqua, la pioggia ed il vento erodono e arrotondano i materiali che incontrano nel loro percorso. La levigatura che Cosma effettua, elimina le inutili eccedenze delle superfici, esaltando le forme ed il design dei manufatti.

Cosma
LEVIGATURA
SMOOTHING

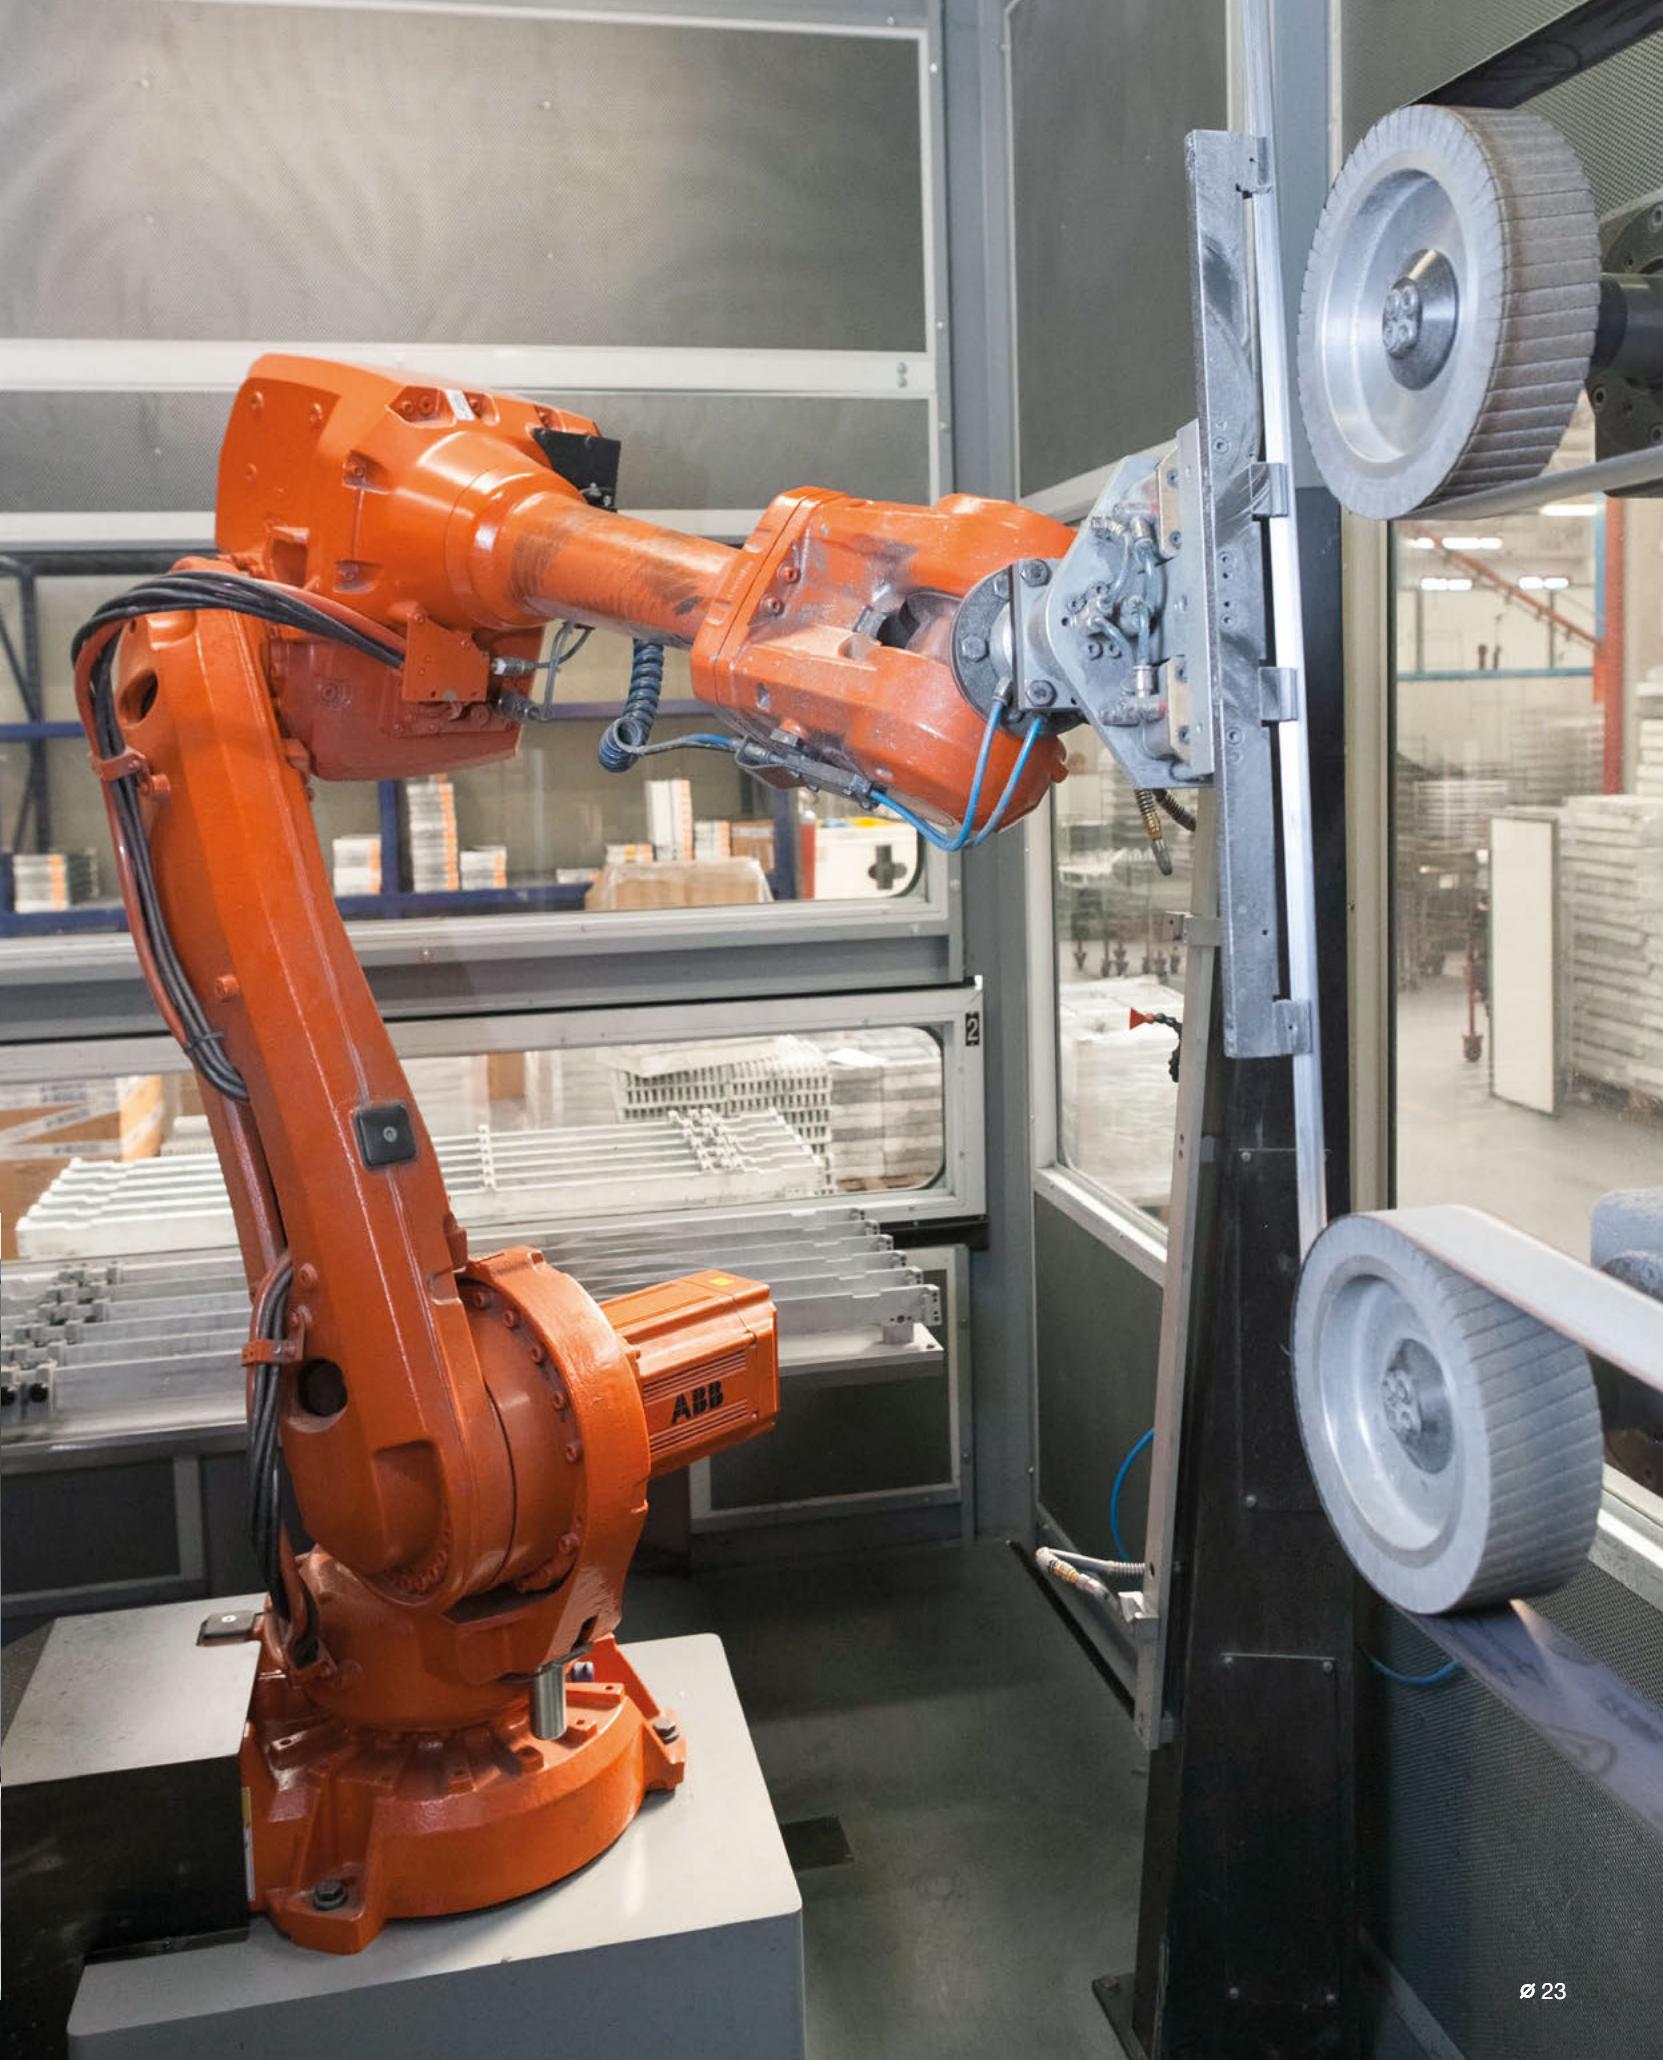

The system is organised and encoded to achieve the desired result by applying science, information technology and automation to production processes.

Technology is placed at the disposal of production, to which Cosma adds all the craftsmanship experience it has accumulated over the course of 60 years of development in the field.

Cosma TECNOLOGIA

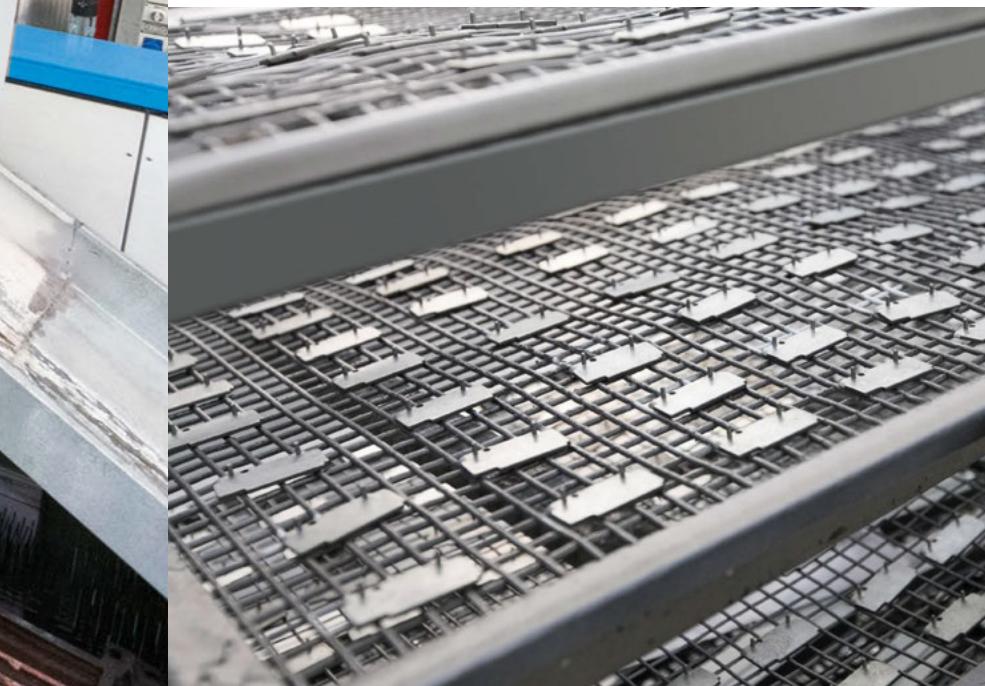

TECHNOLOGY

Sistema organizzato e codificato per raggiungere lo scopo definito, tramite l'applicazione della scienza, dell'informatica e dell'automazione ai processi produttivi. La tecnologia al servizio della produzione, alla quale Cosma abbina tutta l'esperienza artigianale accumulata in 60 anni di sviluppo nel settore.

Cosma
FINITURE
FINISHINGS

Trattamenti superficiali applicati a diversi materiali per ottenere l'aspetto estetico e la struttura desiderati.

Verniciatura, galvanica ed anodizzazione sono i processi di finitura superficiale con cui Cosma propone i propri prodotti per valorizzarli al massimo.

Surface treatments are applied to a variety of materials to achieve the desired appearance and structure. Painting, electroplating and anodization are the surface's finishing processes Cosma applies to its products to enhance them to full effect.

Cosma QUALITÀ

QUALITY

Il controllo della qualità di processo e di prodotto è garantito dalle procedure interne di gestione QUALITY TUTOR.

Tutte le fasi produttive sono costantemente monitorate ed implementate per garantire il mantenimento degli standard richiesti.

Quality control for process and product alike is guaranteed by internal QUALITY TUTOR management procedures. All the production phases are monitored at all times and implemented to ensure the requested standards are maintained.

GO GREEN

Un fiore all'occhiello dei nostri impianti sono il rispetto dell'ambiente e del lavoro, con importanti investimenti in materia di riciclo e depurazione sia dell'acqua che dell'aria.

Our highlights are the respect for the environment and for the work, supported by a lot of investments on recycling and purification of both water and air.

Onorato Citterio. Fondatore.

Cosma TEAM

A FAMILY STORY

La famiglia Citterio, impegnata da tre generazioni nella gestione e sviluppo di Cosma, è supportata da una squadra di collaboratori ben formata e altamente specializzata, che con professionalità e impegno rende Cosma azienda leader in Europa nella produzione di maniglie ed accessori per l'arredamento.

For three generations, the Citterio family has been dedicated to managing and developing Cosma. It is backed by well-trained, highly specialized staff members whose professionalism and commitment make Cosma a European leader in producing handles and accessories for furnishings.

Le relazioni aziendali con architetti, designers e tecnici sono un elemento di qualità del processo produttivo, il presupposto fondamentale per instaurare una collaborazione attiva sul piano dei contenuti per il conseguimento dei migliori risultati. Ne è testimonianza una gamma di prodotti originali ed esclusivi, realizzati per e in collaborazione con numerose industrie d'arredamento.

An essential part of the producing process is the interaction with architects, designers and technicians. It is the starting point to develop a continue cooperation in order to achieve the best possible result. The proof lies in Cosma's wide collection of products realized for and in cooperation with various furniture manufacturers.

ANNO DI PRODUZIONE 1994

Per completare la sua proposta commerciale, Cosma ha sviluppato una linea di prodotti adatta ai gusti più classici che ricerca linee morbide e finiture che richiamano alla tradizione. Maniglie prodotte con materiali specifici e finite con particolare cura per elevare la qualità degli arredi in stile.

To complete its commercial offer, Cosma has developed a line of products appealing to classical tastes looking for soft lines and finishes recalling tradition. Handles produced with specific materials and finished with particular care to elevate the quality of stylish furniture.

Parallelamente all' aggiornamento tecnologico, produttivo e di design, Cosma ha continuato negli anni a ricercare e sperimentare nel campo delle finiture superficiali. I materiali lavorati, acciaio inox, alluminio e zama possono essere finiti con diversi processi : galvanica, verniciatura ed anodizzazione.

As well as ensuring it is up-to-date in technological, production and design terms, Cosma has, over the years, continued to conduct research and experimentation into surface finishes. The materials used, including stainless steel, aluminium and zinkral, can be finished using a variety of processes, including electroplating, painting and anodization.

FINITURE

FINISHES

MATERIALI DISPONIBILI

ACCIAIO INOX: LUCIDO - SATINATO
VETRO: EXTRA CHIARO
CUOIO: COLORI A RICHIESTA

AVAILABLE MATERIALS

STAINLESS-STEEL: BRIGHT - BRUSHED
GLASS: EXTRA-LIGHT
LEATHER: COLOURS BY REQUEST
